

**NAME:** Irene Blythe Fletcher

**D.O.B:** July 18 1981

**HEIGHT:** 5'8

**WEIGHT:** 140lbs

**HAIR COLOUR:** Dark Brown

**EYE COLOUR:** Lurid Green

**HOMETOWN:** Drydenne

**SIGNIFICANT RELATIONS:**

- Irene's immediate family members are all deceased. She is an only child.
- She and Anne Bouchard were romantically engaged with one another during the years of 2000 - 2003. The dissolution of the relationship came shortly after her mother's death related to the "cuckoo birds" that occupy Drydenne Forest.
- Her father, a former cave diving instructor, asphyxiated to death within one of the major restrictions inside of The Bends within the Regency Mines' abandoned quarries in 2009, during an attempt to retrieve Hyatt's remains.
- Irene and Joshua Cavello have been each other's assigned partners within the precinct from 2005 to present (2020).

**REASON FOR RECRUITMENT:**

- Fletcher's mother was a retired sergeant with the Drydenne police department. She took a keen interest in cold cases during her time with the precinct, and would bring her work home to share with her daughter at the kitchen table. These are some of Irene's fondest memories.

**MEDICAL CONDITIONS:**

- Extreme light sensitivity following the multi perforation of her left iris. Irene wears prescription sunglasses during the day to block out the light, and predominantly works the night shift to compensate for this. Her 20/20 vision is otherwise unaffected.

**NOTABLE CHARACTERISTICS:**

- Following her attempt to retrieve her father's body in association with the Hyatt incident, Irene experienced a perforation of her iris in the left eye. It is believed to be associated with The Bends Entity. It does not have a negative impact on her vision. However, she is now able to see beyond the typical planes of human perception (2nd) solely out of the afflicted eye. Theoretically, she is able to see up to the 5th plane.
- Occasionally, Irene complains of periods of disassociation and visions from another perspective. It is believed she is able to see through the eyes of The Bends Entity. This has been used extensively in attempts to capture and secure it, though no success is noted at present.
- After the perforation incident, Irene was diagnosed with Post Traumatic Stress Disorder and heavily avoids the mining region in Drydenne. Other notable locations are The Junction, and Tilrose Lane.
